

Plate EN 1.4404 and 1.4462

Spherical plates in EN 1.4404 or EN 1.4462 are used for watertight entries in combination with PE foam or as suspension points in concrete elements

Technical information:	Material:	Weight:	Drawing:
Plate spherical Ø40/150x5	EN 1.4404	0,65 kg	PTC-035-17
Plate spherical Ø40/150x3	EN 1.4462	0,56 kg	PTC-035-17-3
Plate spherical Ø40/150x5	EN 1.4462	0,71 kg	PTC-035-17

Installation

The upper nut (wet side) must be sealed with silicone to ensure watertightness.

The lower nut (dry side) should be tightened to the specified torque, 10-12 Nm on the nut.

Accessories:

Threaded rod, connecting sleeve, half ball compact with rubber coating, plate and nuts
